TABLE OF CONTENTS

Consolidated Minutes of the Eighty-Ninth Annual Meeting of the South Dakota Academy of Science, Cedar Shore Resort,Oacoma, SD 2-3 April 2004 1
South Dakota Academy of Science 2003-2004 Executive Committee 4
2004 Regional Science Fairs 5
South Dakota Academy of Science March 31, 2004 Proceedings Disbursements/Receivables and Cash Balance in SDSU-SD Academy of Science Proceedings Account—Prepared By Di Drake 8
Report of the Resolutions Committee 8
Executive Summary—Proceedings Editors 9
SDAS Budget Summary For 2003 10
The By-laws of the South Dakota Academy of Science 10
Presidential Address: In Search of a "Golden Age" For Science in South Dakota. Andrew Detwiler 19

Complete Senior Research Papers
Presented at the 89th Annual Meeting of the
South Dakota Academy of Science

Use of Low Vacuum Electron Microscopy to Quickly Estimate Bacterial Populations on incubating Salmonid Eggs. Michael E. Barnes, Hans Stephenson and Mark Gabel 27
Relative Abundance of Small Mammals in Native and Restored Tallgrass Prairie. Samuel J. Kezar and Jonathan A. Jenks 33
Assessing Potential Transport of Tylosin in the Landscape. Jared K. Oswald, Todd P. Trooien, Sharon A. Clay, Zhuojing Liu and Robert Thaler 39
Fox Squirrel Weight and Age Structure in Mast and Non-Mast Forests. Steven L. Reighard, Aaron D. Bucholz, Justin A. Haahr and Jonathan A. Jenks 47
Ergodic theory and Its Application to the Analysis of Nucleic Acid Sequences. O. Michael Melko 55
Accuracy of Home Soil Test Kits on South Dakota Soils. Rhoda Burrows 65
A Comparative Study of Seed Characteristics in the Chenopodiaceae and Amaranthaceae. Elke Kuegle and Mark Gabel 73
Naturally Occurring Acid Rock Drainage and Impacts to the Upper Rapid Creek Watershed Near Rochford, SD. Scott L. Miller, Arden D. Davis, Scott J. Kenner, A.J. Silva 83
Hydrogeology of Lower Spearfish Canyon. Perry H. Rahn 91
Molecular Dynamics of Atomic Clusters: An Object Oriented Approach. John M. Schneiderman and Brian G. Moore 101
Percolation Partitioned Into Pore Size Classes. S.G. Wangemann and R.A. Kohl 115
Road Culverts Across Streams With the Endangered Topeka Shiner, *Notropis topeka*, in the James, Vermillion, and Big Sioux River Basins. Steven S. Wall and Charles R. Berry, Jr. 125
Habitat Use and Population Biology of the Northern Redbelly Snake at Oak Lake Field Station, SD. Regina D. Cahoe and Nels H. Troelstrup, Jr. 137
Overview and Results of the Black Hills Hydrology Study. Daniel G. Driscoll and Janet M. Carter 149
Stratigraphy and Analytic Paleontology of the Lower Pierre Shale At Brown Ranch, Southwestern South Dakota. Marcus R. Ross 163
Environmental Effects on Xylem Cavitation in Seedless Cottonwood. Steven L. Matzner and Laura C. Gooch ... 183
Effects of Different Fire intensities on Understory Vegetation Diversity in the Jasper Burn Area of the Black Hills. Katie D. Derr, Steven L. Matzner and Lee A. Vierling 189
Field Evaluation of Pedotransfer Functions to Estimate Saturated Soil Hydraulic Conductivity. Darrell W. Deboer and R. G. Tekroney 197

Abstracts of Senior Research Papers
Presented at the 89th Annual Meeting of the
South Dakota Academy of Science

Growth of Nano-Crystalline Hydrogenated Thin Films With Extremely Low Hydrogen Dilution. Yung M. Huh, R. Shinar and V. L. Dalal 207
Development of A PCR Primer Set For the HMW Glutenin Genes Expressed in Chinese Spring Wheat. Leslie M. Baehr and Michael K. Wanous 209
Levels of Water-Extractable N-Nitroso Compound and N-Nitroso Compound Precursor in 6 Brands of Snuff. Michael Belling, Lin Zhou and Sidney S. Mirvish 211

Synthesis of Deuterated Tris (2,2,6,-Tetramethyl-3,5-Heptanedionato) Europium (III) (Europium THD). Kathryn A. Henning, Annie Thompson, Allison Caster, Mary T. Berry, and Krisma D. Dewitt 213
Direct Observation and Tensile Strength of Some Polycarbonate Nanocomposites Containing Carbon Nanotubules. Josiah Reams, Tsvetanka Filipova, Guy Longbrake, and David A. Boyles 215
The Simultaneous Evolution of Defense and Competitiveness: Natural Selection. Riston Haugen and David Siemens 217
Simultaneous Evolution of Competitiveness and Defense: Induced Switching in *Arabis drummondii***.** Tessa Jones, Shannon Kulseth, Karl Mechtenberg, Charles Jorgenson, David H. Siemens, Michael Zehfus and Paul Brown ... 219
Identifying Microsatellite Markers in the Genome of the Endemic Antiguan Ground Lizard, *Ameiva griswoldi.* Nathan T. Stephens, Brian E. Smith, Cynthia Anderson and Paul Colbert 221
Generation of gE-EGFP and gI-EGFP Constructs to Study the Role of BHV-1 Glycoproteins gE and gI in BHV-1 Pathogenesis. Ihab Halaweish, Ehab Hassan, C. C. L. Chase and Lyle Braun 223
Non-Chloral-Based Synthetic Routes For the Production of BPC Monomers. Rachel Waltner, Josiah Reams, Guy Longbrake, Tsvetanka Filipova and David Boyles 225
Nanobio-Plastics and Composites From Linseed Oil and Saccharidic Source Materials. Michelie R. While, Annie M. Thompson, David A. Bovles, Jon J. Kellar and William M. Cross 227
Synthesis of Novel Tetraaryl Copolycarbonates and Determination of Mark-Houwink Constants. Guy Longbrake, Tsvetanka Filipova and David A. Boyles 229
Some Effects of Land-use Management Practices on Seed Set of *Cypripedium candidum.* Carol Wake 231
Emergence Date Affects Growth and Fecundity of *Amaranthus* spp. E. Uscanga-Mortera, S.A. Clay, F. Forcella and J. Gunsolus 233
Development of A Method For Evaluating the Yield Goal Approach. K. Kim, D. E. Clay, C. G. Carlson, and S. A. Clay 235
The Presence of Fluorapatite in Prismatic Cartilage From the Permian of Texas. Tylor B. Sampson and Gary D. Johnson 237
Macrofungi Collected in the Black Hills of South Dakota and Bear Lodge Mountains of Wyoming From 1998-2003. A. C. Gabel , E. Ebbert, K. Lovett, S. Herrin, S. Mullen and D. Woolwine 239
Analysis of Microsatellite Variation Within and Among Populations of the Topeka Shiner, *Notropis topeka*. Shane Sarver and Cynthia Anderson 241
3-D Modeling and Computer-Generated Articulation of A *Tyrannosaurus Rex* Forelimb. Ellen Naito Starck 243
The Effect of Calcium-Channel Blockers on the Closure of Traps of Venus Flytrap Plants (*Dionaea muscipula*). Brenda Simon, J.C. Neilson, Erin Talsma and James Sorenson 245
QTL Associated With Maize Kernel Traits Among Illinois High Oil X B73 Backcross-Derived Lines. James Wassom, J. Wong and T. Rocheford 247
Polymorphisms in the Agouti-Related Protein (*AGRP*) Gene in Pigs. Juanita Perera and Nels H. Granholm 249
Controls on Sedimentation in the Late Cambrian Deadwood Formation Near Lead, South Dakota. Melissa M. Campbell and Christopher J. Pellowski 251
Activity Period of Four Species of Carrion Beetle on the Pine Ridge Indian Reservation of South Western South Dakota. Louden Whirlwind Horse, Daniel G. Snethen, and William Wyatt Hoback 253
Population Density of *Nicrophorus americanus* the Federally Endangered American Beetle in the Nebraska Counties of Blaine, Brown, Loup, and Rock. Daniel G. Snethen and William Wyatt Hoback 255
The Effect of Three Types of Light: Halogen, Mecury Vapor and Ultra Violet on Nocturnal Species of Carrion Beetle including *Nicrophorus americanus* the Federally Endangered American Burying Beetle. Daniel G. Snethen and William Wyatt Hoback 257
Dust Fraction in Catchment Sediments, Prairie Pothole Region, South Dakota. Richard Faflak and Jodie Ramsay 259
The Effects of pH Changes on Aerobic Denitrification Conducted By *Pseudomonas aeruginosa* in Hyperbaric and Normobaric Conditions. Ryan M. Klenner, Joshua J. Bathke, Sheena M. Benson, Jena R. Christianson, Ashley J. Hughes, Jessica A. Maschino, Amy M. Schmidt, Adam J. Smith, Angela L. Steams, Paul G. Van Heukelom and William J. Soeffing 261
Are the Northern Great Plains An Inland "Coast"? – Fall Age Structure of Neotropical Migrant Birds in Southeastern South Dakota. Kurt L. Dean, Heather A. Carlisle and David L. Swanson 263
Fall Stopover Duration and Energetic Condition of Three Sandpiper Species in Western Minnesota and Eastern South Dakota. Nathan E. Thomas and David L. Swanson 265
Oak Lake Field Station As A Model For Ethnobotanical Research in the Prairie Pothole Region of South Dakota. Gretchen Mcclintock-Ames and R. Neil Reese 267

Method Development For the Determination of Neomycin in Animal Feed. Amanda Dupay, Nancy Thiex, Dave Ferris and Douglas E. Raynie 269
Primary Gustatory Centers in the Zebrafish Brain. Judy Locati, Matt Nehl and Charles Lamb 271
Effect of A Spring-time Deworming Program on Strongyle Egg Output in Weaned Calves From Eastern South Dakota. A.F. Harmon, W.B. Epperson and M.B. Hildreth 273
Seasonal Fluctuations in Adult Mosquito Populations in Eastern South Dakota During the Summer of 2003. J.R. Bradley, K. Dahmash, R. Beyer and M.B. Hildreth 275
Attempts to Locate *Culex Tarsalis* Larvae in Traditional Mosquito- Breeding Habitats From Brookings County, South Dakota. M.L. Hart, D.J. Thorpe and M.B. Hildreth 277
Characterization and Comparison of Cells By Antigen Presentation, Microfilament Organization, and Phagocytic Properties. N. Harms, B. Tigabu, L.J. Braun, E.A.D. Hassan, G. Elmowalid and C.C.L. Chase 279
Thyroid Hormone Distribution Associated With the Development of Hypertension and Congestive Heart Failure in Dilated Cardiomyopathic Hamsters. Laurie Keogh, A. Martin Gerdes and Patricia M. Tille 281
Polyarylate Co-Polycarbonates Containing the Monomer 2,2-bis[4-(4-Hydroxyphenyl)-Phenyl]Propane. Marci Medalen, Guy Longbrake, Tsvetanka Filipova and David Boyles 283
Comparative Proteomic Analysis of Planktonic and Biofilm *Pseudomonas Aeruginosa* Cells: Identification of Differentially Expressed Proteins. Sébastien Vilain, Pascal Cosette, Guy-Alain Junter, Thierry Jouenne and Volker S. Brozël 285
Conversion of Lewis and Clark Lake and Lake Francis Case to Sustainable Systems. Howard Coker 287
Fecal Coliform Strain Identification to Facilitate Water Resource Management in South Dakota. Fecal Coliform Strain Identification to Facilitate Water Resource Management in South Dakota..... 289
The Hydroclimatology of the Central Territory of Conterminous U.S. and Stream Flow Regime in Upper Missouri River Basin. Boris A. Shmagin and Carol Johnston 291
Aerobic Enzyme Activities and Seasonal Acclimatization in Resident Passerine Birds. Aerobic Enzyme Activities and Seasonal Acclimatization in Resident Passerine Birds 293
SPECIAL SYMPOSIA: Following in the Footsteps of Lewis and Clark: The Geology and Paleontology of the Missouri River..... 295
Fossil Fish From the Cretaceous of the Western Interior: Clarifying the Taxonomic Record. David C. Parris, William B. Gallagher and Barbara Smith Grandstaff 299
Geology and Paleontology Recorded By the Corps of Discovery, Including the First Fossil Reptile From the American West. David C. Parris and Sally Y. Shelton 301
Bentonite Correlation of the Pierre Shale of South Dakota. Janet L. Bertog 303
Stratigraphy and Paleoecology of the Middle Pierre Shale Along the Missouri River (Central South Dakota). Paul A. Hanczaryk and William B. Gallagher 305
Rare Earth Element Analysis (REE) of Fossil Vertebrates in the Pierre Shale: Paleoenvironmental Conditions. Doreena Patrick and David E. Grandstaff 307
Unusual Preservation of the Pelvic Region of *Platecarpus*, (Mosasauridae; Reptilia) From the Sharon Springs Member of the Pierre Shale. Bevin Rose O'Grady, John A. Pappas and Randolph J. Moses 309
Size Variation in Cranial Morphology of Late Cretaceous *Toxochelys* (Testudines; Cheloniidae) of South Dakota. Margaret Hart 311
The Largest Mosasaur (Squamata; Reptilia) From the Missouri River Area (Late Cretaceous; Pierre Shale) of South Dakota. Robert W. Meredith, James E. Martin and Paul N. Wegleitner 313
Meek and Hayden's Nonmarine Paleontology of the Upper Missouri River Section. Joseph H. Hartman 315
Distribution and Taphonomy of the Flying Reptile, *Pteranodon*, From the Campanian Lower Pierre Shale of Western South Dakota and Eastern Wyoming. Jennifer Roberts 317
Paleoecological Implications of the Fox Hills Formation (Maastrichtian) Reptilian Fauna From South-Central North Dakota. John W. Hoganson and Mark J. Erickson 319
Comparison of Gastroliths Within Plesiosaurs From the Late Cretaceous Marine Deposits of Vega Island, Antarctic Peninsula, and the Missouri River Area, South Dakota. Wayne A. Thompson, James E. Martin and Marcelo Reguero 321
Fossil Mammals of the Sentinel Butte Formation (Late Paleocene) of North Dakota. Allen J. Kihm, David W. Krause and Joseph H. Hartman 323
Geological Structures and Timing Constraints Along the Missouri River, Central South Dakota. J. Foster Sawyer and James E. Martin 325
Revised Stratigraphy of the Lower Pierre Shale (Upper Cretaceous) of Central South Dakota. James E. Martin, Janet L. Bertog and David C. Parris 327

Nannofossils and Environment of the Upper Unit of the Crow Creek Member, Pierre Shale (Upper Cretaceous), Crow Creek Sioux Indian Reservation, Central South Dakota. Andrea Concheyro and James E. Martin 329
Molluscs in the Stomach Contents of *Globidens*, A Shell-Crushing Mosasaur, From the Late Cretaceous Pierre Shale, Big Bend Area of the Missouri River, Central South Dakota. James E. Martin and James E. Fox 331
Rare Earth Element (REE) Analyses of Fossil Vertebrates in the Pierre Shale: Fossil Provenience. Doreena Patrick, James E. Martin, David C. Parris and David E. Grandstaff 333
The First Named Marine Reptile From the American West, A Mosasaur: *Mosasaurus missouriensis* (Harlan) 1834; Its History, Source, and Osteology. James E. Martin 335
New Species of the Diving Bird, *Baptornis*, From the Lower Pierre Shale (Upper Cretaceous) of Southwestern South Dakota. Amanda H. Person and James E. Martin 337
The Origin of James Ridge, Yankton County, South Dakota. Gary D. Johnson and Kelli Mccormick 339
PLENARY SESSION:Recovering Lewis and Clark's River: Today's Perspectives on the History, Management and Ecology of the Missouri River Fluvial Processes and Recreational Opportunities of the Lower Missouri River. Perry H. Rahn 343
